

Tapestry Policy

As a part of our commitment to providing the highest Standard to of quality and development for each Child. Before 2020 we used a communication book which was in accordance with the statutory framework for the EYFS 2017 (parent partnership).

Since then, we have switched to a digital platform called Tapestry, Tapestry allows parents to view daily by the minute the wellbeing and updating of their child. It features, a register, observations, reports, care diary and many more.

We shall aim to keep parents updated with what is and has been going on with their child/children daily.

All staff in the allocated room communicate to the parents on Tapestry, it is however the key person responsibility to complete the reports while the child is at the setting.

To check the effectiveness, we ask that the parents sign-in daily and comment and use to give information to the staff which otherwise would not be possible. Tapestry also contains information that has been received from management to the staff for the parents' attention only.
